

**PROOF OF COVID-19 VACCINATION FOR NONCITIZEN NONIMMIGRANTS**  
**PASSENGER DISCLOSURE AND ATTESTATION TO THE UNITED STATES OF AMERICA**

As required by United States federal law, all airlines or other aircraft operators must collect the passenger attestation on behalf of the U.S. Government.

This passenger disclosure and attestation fulfills the requirements of U.S. Centers for Disease Control and Prevention (CDC) Amended Order: *Implementing Presidential Proclamation on Advancing the Safe Resumption of Global Travel During the COVID-19 Pandemic*. As directed by the CDC and the Transportation Security Administration (TSA), through Security Directive 1544-21-03 and Emergency Amendment 1546-21-02, and consistent with CDC's Order implementing the Proclamation, all airline or other aircraft operators must provide the following disclosures to all passengers prior to their boarding a flight from a foreign country to the United States.

The information provided below must be accurate and complete to the best of the individual's knowledge. Under United States federal law, the applicable portion of the attestation must be completed for each passenger ages 2 years or older and the attestation must be provided to the airline or aircraft operator prior to boarding a flight to the United States from a foreign country. Failure to complete and present the applicable portion of the attestation, or submitting false or misleading information, could result in delay of travel, denial of boarding, or denial of boarding on future travel, or put the passenger or other individuals at risk of harm, including serious bodily injury or death. Any passenger who fails to comply with these requirements may be subject to criminal penalties. Willfully providing false or misleading information may lead to criminal fines and imprisonment under, among other provisions, 18 U.S.C. § 1001. Providing this information can help protect you, your friends and family, your communities, and the United States. CDC appreciates your cooperation.
